Thu 02-Oct-25 5:01 AM

Hi all,

I hope your term 3 is going well and is off to a good start! As usual, our marketing team has put together a very nice newsletter for you all!

-- WEEK 3 NEWSLETTER --

Hey everyone!!

WELCOME BACK!!! We did it twin 😎, the stress of last term is behind us yahoo!

What awaits us now is the myriad of adventures and fun memories to be unlocked as we step into term 3. Right off the bat, the wonderful ELSOC team is hard at work 💪 with some great workshops and social events lined up.

So as always — stay grounded ⚡and keep being ohm-azing!! 😂😂

UPCOMING EVENTS

DESN1000 Workshop

Need help with your DESN1000 project??? Come along and ask all of your burning questions to help bring your project to life 💡⚡

Date: Wednesday Week 3, 1/10/25
Time: 3-5pm

WIESOC, ELSOC & RAMSOC
ANNUAL BALL: Monet's Garden

Step into a night of elegance and enchantment at The Eveleigh by The Grounds, where lush greenery and romantic charm set the scene for an unforgettable evening.

This year, we invite you to wander through the beauty of Monet's Garden, as you indulge in a DELICIOUS 3-Course Meal, ALL NIGHT DJ & PHOTOBOOTH, and soak in an atmosphere blooming with wonder. 🌸🌿✨

Date: Monday Week 7, 27/10/25
Time: 6:30–10:30pm
Location: The Eveleigh | Events by The Grounds

PAST EVENTS

Minigolf with WIESoc and GHD

We had a great time playing some putt-putt and connecting with representatives from GHD! 💥

We brought our collective childhood dream of bringing the coolmaths game to life!

(Papas cheeseria was and **still** is the GOATest game - if you have any sort of argument against it - please unsubscribe from this newsletter 😊)

Mindful Mug Painting

We got creative last Wednesday!! 🎨 It was lovely painting with everyone, taking a break, and enjoying the warm afternoon sun 🌻

UPCOMING OPPORTUNITY

S3B Student Lecture | Beyond the Circuit, Semiconductors in Electronics

From high-end microphones and cinematic cameras to drones monitoring the planet, today's most exciting tech is powered by one thing: semiconductors.

This student facing session will dive into how Australian companies Blackmagic Design, Aquila, and RØDE harness the power of chips to create smarter and faster electronics. Students will explore the role of semiconductors in these electronics and discover why these tiny components are the unsung heroes of modern innovation.

Thursday 16 October
4.30pm – Registration & Light Catering
5.15pm – Lecture commences
Macquarie City Campus, level 24/123 Pitt Street, Sydney
