== SCHOLARSHIP OUTLINE ==

Started by Luke Welfare in 2023 from the 1980's ElecEng group as a perpetual scholarship.

To have funds in-place for undergraduate students who come from a low social economic background.

"It's to help the student complete their degree."

"The world needs more Electrical Engineers as things are getting smarter."

Prof. Julien Epps at the time contributed some School funds toward it.

== ELSOC-ALUMNI GATHERING ==
------------------------------

An informal yearly meet-and-greet between ElecEng undergraduates and graduates that has sparked along from 2016.

\*\* Newsflash \*\*

"Hey Robert, hope you're well!

I have pretty much confirmed a date with the roundhouse re a booking for Alumni night. It will be on a Friday on the 1st of August.

I know you have your own pathways to contact alumni however I was wondering if you have any suggestions on how to contact / encourage past alumni to attend the event as well.

I look forward to hearing from you and discussing this night further!

Cheers,  
Liam Mitchell  
ELSOC Events Coordinator"
