SCHOOL OF ELECTRICAL ENGINEERING
AND COMPUTER SCIENCE

25 February 1987

To whom it may concern

Robert Ted Smith

I have been acquainted with Mr. R.T. Smith for approximately five years, first in his capacity as President of the Electrical Engineering Student Society in 1982, and subsequently as his thesis supervisor, in 1985.

For a number of years prior to 1982, ELSOC was a very quiet, inactive student society, but under Mr. Smith's presidency and largely due to his hard work, there was a resurgence of student interest and activity in the society.

I found Robert Smith a dedicated, determined and hard working student, always keen to acquire a complete and in-depth understanding of his subject, and unrelenting in his seeking for the source of any difficulty.

I believe Robert T. Smith is a person of good character and integrity, and I have always found him reliable.

Dr. Robert Radzyner,
Senior Lecturer in Electrical Engineering
& Computer Science.
