

Sections (part\_1/2): -- Merry Christmas -- Head of School Vacancy -- ELSOC 70th Anniversary -- RU Still OK?

### Merry Christmas

Our Ctee wishes everyone a "Merry Christmas" or "Happy Holidays" if you're in the United States. Remember, to do the "PWM" thing with your and ingestion and travels.

For the ones in Amsterdam (Netherlands), Toulouse (France) and elsewhere in Europe we hope the snow precipitation is gentle enough to enjoy it. I won't mention Matt Rowe's or Matt Davis's name just in case they're feeling homesick and missing our summer heat.

Can't recall that PWM expands to 'Pulse-width modulation'? Try the Wikipedia link of [https://en.wikipedia.org/wiki/Pulse-width\\_modulation](https://en.wikipedia.org/wiki/Pulse-width_modulation).

### Head of School Vacancy

Hopefully, some will hear who it will be before Term 1 starts on 12th Feb 2024. Our Ctee wishes the person mulling over the vacancy success in formulating a coherent application. No doubt, Dean (Prof.) Julien Epps will be 'engineering' some people toward tangible outcomes.

## ELSOC 70th Anniversary

Hopefully, they'll be able to attract some Alumni to their undergraduate Night. Probably early in Term 2 (29 May - 02 Aug).

Brielle, in the Elsoc AGM last September was excited to be part of it for 2024. No doubt the rest of her Executive will have some 'electrifying' ideas. Anything to share with them? Email [president@elsoc.net](mailto:president@elsoc.net) and mention the Alumni in your post so it won't be tossed-out as spam.

## RU Still OK?

We hope your health is stable enough through this calendar change-over time.

Hopefully, the PSA test that some may need will reflect happy news. Hopefully, the media predicted Christmas cough doesn't stay long in your immediate festive circles. Get in touch if you'd like to share anything.
