== INTRODUCTION ==

Hope your long weekend, DLS change or your sporting team went well. If not, the Bathurst 1000 should rev-you-up next weekend.

The ELSOC AGM was held last Tuesday at the CLB on 29 Sep 2026. The start was delayed 15 minutes by the 'Circuits & Signals' exam (ELEC2134) or 6.021A 'Circuit Theory I' for the oldies.

== QUOTES: NEW JOURNEY ==

From my pencilled collection.

Buddhist:

"The journey is never wrong for the right traveller."

Chinese:

"Success in the end erases all the mistakes along the way."

Confucius:

"The man who moves a mountain begins by carrying away small stones."

GPS:

Notice how the GPS never says, "you made a mistake."? It simply says, "recalculating route."

Japanese:

"Beginning is easy; continuing is hard."

Japanese:

"If you get on the wrong train, get off at the nearest station. The longer it takes you to get off, the more expensive the return trip will be."

Richard Feynman:

"Many people do not understand that physics is not mathematics. And mathematics is not physics. One helps the other."

Rumi:

"As you start to walk on the way, the way appears."

Saadi Shirazi:

"Have patience. All things are difficult before they become easy." (Persian)

Steve Jobs:

If you are working on something exciting that you really care about, you don't have to be pushed. The vision pulls you."

Voltaire:

"Judge a man by his questions rather than by his answers."

Zen:

"Travel light, even yesterday is luggage."
